DRAWRUSH.IO

Draw **fast**. Think **faster**. Compete **live**.

1. A real-time drawing and guessing game.

2. Inspired from the popular game skribbl.

3. Creativity, Speed and Competition.

TECH STACK

NEXT JS

Used for building a responsive and interactive frontend interface.

SOCKET IO

Enables real-time communication between the client and server seamlessly.

NODE JS

Handles backend logic, processing requests and managing server operations.

KEY FEATURES

KEY FEATURES

REAL-TIME MULTIPLAYER GAMEPLAY

Players join rooms and play together live with zero delays

TURN-BASED DRAWING SYSTEM

Each player takes a turn to draw a word while others guess.

KEY FEATURES

INTERACTIVE GUESSING CHAT

Players type their guesses in a real-time chat box for instant scoring.

TIMED ROUNDS

Each round has a countdown timer, making the game fast and exciting.

KEY FEATURES

DYNAMIC SCORING SYSTEM

Points are awarded based on speed and accuracy of guesses.

INTUITIVE DRAWING TOOLS

Easy-to-use canvas with pen, eraser, and color options.

KEY FEATURES

PRIVATE & CUSTOM ROOMS

Players can create custom rooms and invite friends via links.

HINTS MECHANISM

Progressive hints help players guess the word if they are stuck.

WHAT'S DIFFERENT

WHAT'S DIFFERENT

DEDICATED LEAVE BUTTON

DrawRush provides a clear and accessible Leave Game option, allowing players to exit a room smoothly without disrupting the gameplay experience.

AI-GENERATED CONTEXTUAL HINTS

DrawRush uses AI to generate smart, sentence-based hints that are contextually related to the word, helping players guess intelligently without revealing the answer directly.

WHAT'S DIFFERENT

ROOM CODE BASED JOINING SYSTEM

In addition to invite links, DrawRush allows players to join games using a room code, making it easier to connect quickly and securely.

DIFFICULTY LEVELS

Unlike Scribble.io, DrawRush introduces multiple difficulty levels (Easy, Medium, Hard), adjusting word complexity to suit beginners and advanced players.

CHALLENGES FACED

Socket Connection Management

ISSUE

- Faced issues with multiple socket connections being created
- Caused duplicate events and unexpected behavior

HOW WE SOLVED

Solved using a single shared socket instance
(singleton pattern)

Game Logic Implementation

ISSUE

Issues occurred with inconsistent state changes and unexpected behavior.

HOW WE SOLVED

Solved by breaking the logic into smaller modules and using clear state management with well-defined conditions.

Drawing Board Management

ISSUE

Drawings were getting misaligned or cleared unintentionally

HOW WE SOLVED

Solved by consistently tracking drawing coordinates and updating the canvas state in real time.

GAME FLOW

Create room

Join room

DrawRush.io is a free online multiplayer drawing and guessing pictionary game.

A normal game consists of a few rounds, where every round a player has to draw their chosen word and others have to guess it to gain points!

The person with the most points at the end of the game, will then be crowned as the winner! Have fun!
